

ADDENDUM

TO OWNER'S MANUAL
for the HUMAN BRAIN

We have discovered that some of our models (roughly one in ten) will experience a suppression of normal brain activity during its lifetime. Typically, this ailment will adversely affect the ENTIRE life experience: FUNCTIONALLY, EMOTIONALLY, even PERCEPTUALLY. Since you have a brain, you are susceptible to this very serious threat, commonly known as depression. Prolonged or extreme cases may result in suicide. It is important to remain aware of this serious threat- and always remember that it is readily treatable. See your doctor. Treat depression. Prevent suicide.
